

Professional Summary

Frontend Developer with hands-on experience in building responsive and interactive user interfaces using HTML5, CSS3, JavaScript, React.js, and Tailwind CSS. Strong understanding of Git version control, UI/UX design principles, and deployment using Netlify. Passionate about creating user-friendly web applications and continuously learning new technologies to solve real-world problems.

Career Objective

To apply my frontend skills in a growth-oriented company and learn through real-world projects.

Academic Qualifications

- Bachelor of Computer Application (BCA), Quantum University, Roorkee — 2025
CGPA: 6.74
- 12th (UP Board) — 2022
Percentage: 63.4%
- 10th (UP Board) — 2020
Percentage: 69%

Projects

• Weather App – Displays real-time weather data using OpenWeather API. GitHub: github.com/Abhi146161

• Portfolio Website – React.js, Tailwind CSS

A personal portfolio website showcasing my skills, projects, contact details, and GitHub profile. Built using React components and styled with Tailwind CSS. Fully responsive and deployed using Netlify.
